The Well-being of Military Children: Augmenting Clinical Care with Web and Mobile-based tools

Resources

The American Psychological Association’s Task Force on Telepsychology identified unique opportunities and challenges that technology brings to the provision of clinical care and published “Guidelines for the Practice of Telepsychology” in 2013.

The National Center for Telehealth & Technology (T2) is a component center of the Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury (DCoE).

The mission of T2 is to lead the innovation of health technology solutions for psychological health and traumatic brain injury, and deliver tested, valued health solutions that improve the lives of our nation’s warriors, veterans, and their families.
